The FD 320 Document Folder offers an unmatched level of performance and affordability. Designed with ease of operation in mind, the FD 320 utilizes a drop-in feed system, eliminating the need to fan paper. Clearly marked fold settings and removable top and bottom fold plates make this folder ideal for churches, schools, businesses or departments that demand quick and easy set-up and operation.

An extended conveyor allows operators to run most applications without having to unload the output before the infeed is empty. As with all Formax folders, the FD 320 consists of a heavy-duty steel frame and molded, high-impact side covers for durability.
